

Hello families;

Erin's Law requires that elementary schools share information with students during the year to ensure our students are aware of safe and unsafe touch, and the safe people who they can talk with in their community.

Below are web addresses for age-appropriate, **Protect Yourself** videos that will be posted via Seesaw. Included is a snapshot of the main ideas presented in the videos, which could be displayed in a prominent place in your home.

Also, attached to this email, are age-specific guidelines for talking with kids about preventing sexual abuse. These are being sent out in advance so you have time to review prior to your children seeing these on Seesaw as a required assignment.
